Dual ISDN 2e (4 Channels) Annual charge existing Installation	£1,799.52	£ 354.00

1. IP Trunk includes 10 DDI numbers. BT Pricing does not include DDI range
2. Unlike ISDN circuit IP trunk is not site dependant – It can be retained during office relocation or as part of a disaster recovery backup plan
3. Call Charges on either circuit are 10p per minute although the IP trunk charges are on a per second basis
4. Pricing for IP Trunks assumes a broadband service is available on site
5. The maximum number of calls on a IP trunk circuit is subject to available bandwidth. For more than 6 simultaneous calls we recommend a dedicated broadband voice circuit
6. Additional charges may apply for number porting, call divert, and termination of BT contact
7. Pricing quoted for BT does not include special offers or volume discounts
8. Pricing current November 2011
9. All prices quoted are excluding vat
